

Stephen Robinson

Technical Project Manager

PROFESSIONAL SUMMARY

- **AI-Enabled Technical Leadership:** PMP-certified project manager with 10 years delivering complex engineering and cloud infrastructure initiatives. Currently pursuing MS in Artificial Intelligence (exp. 2028) to drive next-generation intelligent systems and AI-driven program innovation.
- **Enterprise Program Delivery:** Proven success managing multi-million dollar capex/opex portfolios across Agile and Waterfall projects, aligning cross-functional technical teams in cloud platforms (AWS, Azure) and enterprise infrastructure modernization.
- **Technical Versatility:** Hands-on expertise in Python, SQL, and JavaScript combined with strategic program management—uniquely positioned to translate emerging AI/ML capabilities into executable business solutions with measurable ROI.

PROFESSIONAL EXPERIENCE

Engineering Project Manager - NBCUniversal

Feb 2022 - Present

Universal City CA/Remote

- Deliver a \$1M+ portfolio of infrastructure, cloud, and security programs—network vacates, platform upgrades, cloud migrations, ServiceNow workflows, and BeyondTrust rollouts—coordinating 20+ engineering, cyber, and operations teams with 100% on-time execution.
- Lead the multi-year Evertz Mediator Release Management program (2022–present), driving 3–5 releases annually, overseeing 50–100 regression test cycles, and reducing deployment defects by 25–35% YoY through improved planning and QA alignment.
- Strengthen delivery discipline across 30+ simultaneous workstreams with structured RAID governance, improving risk visibility and mitigation speed by ~40% and enabling clearer, data-driven decision making for senior leadership.

Technical Business Analyst - NBCUniversal

Sep 2019 - Feb 2022

Universal City, CA

- Managed server operations and application lifecycle for Universal Brand Development systems, overseeing deployments, maintenance, and upgrades that supported 24/7 availability across global business units.
- Drove operational excellence by partnering with Engineering, Operations, and Technology teams to streamline workflows, reduce system issues, and improve release reliability across the Universal Brand Dev application suite.
- Oversaw Universal Brand Development's annual financial plan, managing CAPEX/OPEX pacing and ensuring accurate forecasting, budget alignment, and cost control across multiple technology initiatives.

EDUCATION

Master of Artificial Intelligence

Penn State University

2025 - 2028 (Expected)

Bachelor of Science in Information Technology

University of South Florida

2012 - 2017

CERTIFICATIONS

Project Management Professional (PMP)

Project Management Institute

PMP Number: 3793658

Exp: 03/2027

Certified Scrum Master (CSM)

Scrum Alliance

Certification ID: 001750932

Exp: 04/2027

Cloud+

CompTIA

ID: COMP001021779488

Exp: 01/2027

Stephen Robinson

Technical Project Manager

PROFESSIONAL EXPERIENCE (CONT.)

Process Improvement Consultant - DocuPhase Oct 2018 - Sept 2019
Clearwater, FL

- Architected and deployed custom DocuPhase workflow automation solutions for enterprise clients, reducing manual processing time and improving operational efficiency across accounts payable, procurement, and document management functions.
- Designed and developed custom front-end interfaces using HTML, CSS, and JavaScript to create intuitive user experiences for complex business workflows and approval processes.
- Engineered backend database solutions using advanced SQL for data integration, custom reporting, and workflow logic, ensuring seamless system performance and scalability.

Business Analyst - Fairfax Software Aug 2016 - Oct 2018
Tampa, FL

- Delivered end-to-end Quick Modules imaging solutions for enterprise clients, managing requirements gathering, application configuration, testing, and production deployment across healthcare, financial services, and government organizations.
- Traveled to client locations nationwide to conduct business process analysis, facilitate stakeholder workshops, and identify automation opportunities that streamlined document workflows.
- Configured and deployed custom document management systems, ensuring successful integration with existing enterprise infrastructure through rigorous QA testing and comprehensive user training.

Data Migration Intern - Fairfax Software Apr 2016 - Aug 2016
Tampa, FL

- Supported the migration of large data sets from legacy database systems to modern platforms, performing data mapping, extraction, transformation and loading (ETL) tasks to ensure integrity and alignment with business requirements.
- Identified, diagnosed and resolved errors across Microsoft SQL Server R2 environments, collaborating with senior DBAs and stakeholders to troubleshoot root causes and implement remediation.
- Created and maintained documentation of migration procedures, data flows and issue-resolution logs, contributing to improved process repeatability and audit readiness.
